ACTA VITAMINOLOGICA ET ENZIMOLOGICA

1984 - volume *6 n.s.*

INDICES

Paper Index

Nutritional studies on maltilol. Part 1: Acceptability, energetic yeld, effect on growth and blood biochemical parameters. (M. MARANESI, P. GENTILI and G. CARENINI) pag. 3

Nutritional studies on maltitol: Part 2: Effect on lipid metabolism and fatty acid composition of different rat tissues. (M. MARANESI, V. BARZANTI, P. GENTILI and G. CARENINI) » 11

Serum vitamin E and lipid peroxides in malnutrition, hyper and hypothyroidism. (S. KRISHNAMURTHY and D. PRASANNA) » 17

Urinary escretion of xanthurenic acid and zinc in diabetes: 1) Separation of xanthurenic acid-Zn^{2+} complex by ion-exchange chromatography. (S. IKEDA and YAHITO KOTAKE) » 23

"In vivo" inhibition of murine liver aspartate aminotransferase by isoniazid. (R. YAMADA, Y. WAKABAYASHI and A. IWASHIMA) » 29

Intestinal absorption of vitamin A in experimental uremia. (N.D. VAZIRI, D. HOLLANDER, K. KENNEDY, K.L. PALMER and V.L. DADUFALZA) » 41

Thiamin absorption by small intestine. (G. RINDI) » 47

The effect of an energy stimulator on blood electrolyte and lactate levels in athletes under training. (E. BOMBARDIERI, R. BATTISTESSA, F. CRIPPA and G. ESPOSITO) » 57

Effetto di uno stimolatore energetico sulla performance di un gruppo di giovani: valutazione mediante vide-game test. (G. CEREDA e M. SCOLARI) » 63

Transient lipoprotein deficiency at birth: A cause of low levels of vitamin E in the newborn. (I.D. DESAI, F.E. MARTINEZ, J.E. DOS SANTOS and J.E. DUTRA OLIVERIA) » 71

The effect of different vitamin D treatments on serum vitamin D levels in early postmenopausal women. (B. RIIS, C. CHRISTIANSEN and P. RODBRO) » 77

Ascorbic acid in thyroidectomized rats - I biosynthesis and catabolism. (N. NATH, M. NATH and M. G. MUDDESHWAR) » 83

Ascorbic acid in thyroidectomized rats - II ascorbic acid status of the storage tissues and hepatic biosynthesis of glucuronic acid. (N. NATH, M. NATH and M. G. MUDDESHWAR) » 91

Action of vitamin P like compounds on lysosomal fragility in hypercholesterolemia: implication of ascorbic acid and its metabolites. (A.B. RATHI, N. NATH and S. N. CHARI) » 97

Effect of mercuric chloride on several scavenging enzymes in rat kidney and influence of vitamin E supplementation. (S. ADDYA, K. CHAKRAVARTI, A. BASU, M. SANTRA, S. HALDAR and G.C. CHATTRJEE) » 103

Effect of polyprenoic acid (E5166) on a human neuroblastoma cell line in culture. (T. HASEGAWA) » 109

Clinical, biochemical and histological results of a duble-blind trial with 1,25-dihydroxyvitamin D_3, estradiol and placebo in post-menopausal osteoporosis. (A. CANIGGIA, G. DELLING, R. NUTI, F. LORÈ and A. VATTIMO) » 117

1-Alpha-OH-Cholecalciferol (1-Alpha-OHD_3) and low phosphate diet in predialysis chronic renal failure: effects on renal function and on secondary hyperparathyroidism. (G. COEN, F. MESSA, C. MASSIMETTI, S. MAZZAFERRO, M. MANGANIELLO, G. DONATO, D. FINISTAURI, G. GIULIANO and G.A. CINOTTI) » 129

Separate determination of anticoccidial thiamine analogs by high-performance liquid chromatography. (K. NOSAKA, H. NISHIMURA and A. IWASHIMA) » 137

Effect of C18:3 (n—3) dietary supplementation on the fatty acid composition of the rat brain. (M. COOCCHI, C. PIGNATTI, M. CARPIGIANI, G. TAROZZI, E. TURCHETTO) » 151

Separate determination of anticoccidial thiamine analogs by high-performance liquid chromatography. (K. NOSAKA, H. NISHIMURA and A. IWASHIMA) » 137

Effect of C18:3 (n—3) dietary supplementation on the fatty acid composition of the rat brain. (M. COOCCHI, C. PIGNATTI, M. CARPIGIANI, G. TAROZZI, E. TURCHETTO) » 151

Fatty acid composition of single brain structures following different alpha linolenate dietary supplementations. (G. TAROZZI, V. BARZANTI, P.L. BIAGI, M. COOCCHIR. LODI, M. MARANESI, C. PIGNATTI) » 157

Purification and some properties of a thermostable α-amylase from *Bacillus apiarius* CBML 152. (S.B. GHOSH, A.K. CHANDRA) » 165

Ascorbic acid supplementation and five year survival rates in women with early breast cancer. (J.M. POULTER, W.F. WHITE, J.W.T. DICKERSON) » 175

Comportamento della folemia in bambini affetti da talassemia mayor in regime trasfusionale e in portatori di tratto talassemico. (P.C. CASTAGNA, F. FEDELI, A.M. FUSCO, L. MONTANI, F. RADAELLI, R. TARTARA) » 183

A kinetic study of the immediate nucleotide precursor of riboflavin in whole cells of *Eremothecium ashbyi* at rest. (K. NAKAJIMA, T. NADAMOTO, H. MITSUDA) » 189

Interaction of vitamin A deficiency and excess fluoride in calcification of rat bones and teeth. (S.S. HARRIS, J.M. NAVIA) » 201

A method for routine estimation of vitamin D activity in human and bovine milk. (M.T. PARVIAINEN, T. KOSKINEN, M. ALA-HOUHALA, J.K. VISAKORPI) » 211

Studies on the urinary escretion of xanthurenic acid in diabetics. (M. HATTORI, YAZO KOTAKE, YAHITO KOTAKE) » 221

SHORT COMMUNICATION - Efficacy of provitamin A carotenoids in reversing vitamin A deficiency induced lesions in brain lipids of chicks. (N. SRIVASTAVA, K.C. GOYAL, Y.K. SHARMA, U.K. MISRA) » 229

Hospital malnutrition: incidence and prospective evaluation of general medical patients during hospitalization. (E. AGRADI, V. MESSINA, G. CAMPANELLA, M. VENTURINI, M. CARUSO, A. MORESCO, A. GIACCHERO, N. FERRARI, E. RAVERA) » 235

Donatori e accettori di gruppi metilici biologicamente labili: caratterizzazione mediante un sistema nicotinamide trigonellina. (W. CIUSA) » 243

Stimulatory effect of polyprenoic acid E5166 on 2-deoxy-D-glucose uptake by swiss 3T3 cells. (T. HASEGAWA, H. NISHINO) » 251

Nutritional studies on anti alpha-amylase: I) Influence on the growth rate, blood picture and bisochemistry and histological parameters in rats. (M. MARANESI, G. CARENINI, P. GENTILI) » 259

Possibility of diacetyl and related compounds as the 4-carbon compound necessary for the formation of riboflavin in *Ashbya grossypii*. (K. NAKAJIMA, H. MITSUDA) » 271

The metabolism of [^{3}H] pteroylglutamic acid in rat liver during regeneration after partial hepatectomy. (C. BOVINA, G. FORMIGGINI, B. TOLOMELLI, M. MARCHETTI) » 283

Inhibition of serum aspartate aminotrasferase induced by isoniazid administration in mice. (R.H. YAMADA, Y. WAKABAYASHI, A. IWASHIMA) » 289

Nutritional studies on *Spirulina maxima*. (M. MARANESI, V. BARZANTI, G. CARENINI, P. GENTILI) » 295

Il concetto di ipervitaminosi come una disvitaminosi e rapporti con iperdosaggio e sovraccarico. Classificazione etiopatogenetica delle disvitaminosi. (F.M. CHIANCONE) » 305

Reversible photoreduction of flavin with bilirubin II. (E. KNOBLOCK, R. HODR, J. HERZMANN, E. PROCHÁZOKVÁ, V. HOUDKOVÁ) » 313

La terapia dell'acne grave con acido 13-cis-retinoico (Isotretinoin) per via orale. (M. GANDOLA) » 325

Intestinal absorption of 5-methyltetrahydrofolate in experimental uremia. (H.M. SAID, N.D. VAZIRI, R.K. KARIGER, D. HOLLANDER) » 339

Nutritional studies on anti-alpha-amylase: II) Lipid metabolism investigation: fatty acid composition of organs and tissues. (M. MARANESI, V. BARZANTI, P.L. BIAGI, G. CARENINI, P. GENTILI) » 347

Sull'impiego di preparati vitaminici del gruppo B anche ad alte dosi e per via parenterale su una popolazione di pazienti ospedalizzati. (V. PAOLETTI, P. STRAZZERA, V. KATSAROU, A. MAMMARELLA, M. BARLATTANI). » 355
